

I am still waiting from a reply from your office on getting my and other people's merchandise replace from Gray Hound Bus service, when the police

were called and the Attorney General, of Ohio, where Greyhound is based. they switch bus and lost items from our bags, All together on this one trip, 3 people were robbed My Laptop, Cellphone, and hand held Casio Color TV , A women's whole purse, and a gentlemen sleeping, who the driver let stay on the bus for our two hour delay, and switching his money, was stolen from his jacket. only person allowed on bus was driver.

Main office said Sorry nothing they can do cause they don't know which driver , removed the baggages from under the buses, . Greyhound in Mount Laura , i was told to go after, cause they should have suggested to have items expressed ahead well that defeats the reason for carrying with you so you can get work done, on a three day long trip, that way you don't miss work and you make it to where you have to go .

So Governor Cody, I'm still waiting to hear why nothing is being done and how to get Greyhound to replace My Stolen Items. The Best part of this The Bus driver Asked if he could use my Phone cause a crying baby was on board, and the mother didn't speak or understand English, and like a fool, i was nice enough to call by Boss is is Bilieul to talk to the lady cause he (the bus driver) was going to put off at the next stop, if the baby didn't stop crying. That's how he knew whom had what.
